

FRONT PORCH TEA

Kathleen Hogue

5 regular size tea bags

4 cups water

4 more cups water

$\frac{3}{4}$ cup sugar

Remove tags from tea bags. Place in a small sauce pan with 4 cups of water. Bring to a boil over medium high heat and boil for one to two minutes. Fill a 2 quart (64 oz) pitcher half way with cold water and add the sugar. Remove the bags from the pan. Pour hot water into pitcher. Stir to dissolve. Add more water or sugar to adjust to your liking. One family size tea bag equals three regular size bags....so you can use 2 of those for similar results.
